Proposal on Substituting cement
base paint for Alkyd Resin Paint.

Dear Mr. [REDACTED]:

Reference is made to your letter of 21 October 1953,
same subject.

It is noted in the Contractor's proposal that there is no allowance made for the difference in cost of the two types of paint. Our information is that the cost of the Alkyd Resin Paint is considerably higher than the cement base paint.

Please have the Contractor review his estimate and advise us if there is to be any change in the proposal.

Very truly yours,
